

HIGH SCHOOL TECHNICAL EDUCATION INSTITUTIONAL GRANT PROGRAM

AUTO TECHNOLOGY, DIESEL TECHNOLOGY, COLLISION REPAIR & REFINISH TECHNOLOGY, WELDING AND CNC TECHNOLOGY

Your school has a tremendous opportunity to help its vocational students capitalize on their education and get a head start on postsecondary training that can put them on the path to a career. By collaborating with UTI and NASCAR Tech, your qualified students can earn advanced placement or grants in professional technician training programs.

HOW IT WORKS

- Automotive, Diesel and Welding students must have completed the related Tech Ed program at, and must have graduated from a secondary school accredited by the ASE Education Foundation (formerly NATEF) or one at which the Automotive, Diesel or Welding program curriculum has been reviewed by UTI and approved for Technical Education Institutional Grant program. Collision Repair students may also participate if they have completed the related Tech Ed program at, and must have graduated from a school accredited by the ASE Education Foundation or that belongs to the I-CAR Industry Training Alliance, or those schools whose Collision program curriculum has been reviewed by UTI and approved for Technical Education Institutional Grant program.¹ Welding students may also participate if they have completed the related Tech Ed program at, and have graduated from a school certified by the American Welding Society or one that is a SkillsUSA member in the area of welding. CNC Machining students must have completed the related Tech Ed program at, and must have graduated from a secondary school that is a member of SkillsUSA in the area of CNC.
- Students must start their postsecondary training at UTI or NASCAR Tech within one calendar year following the year of high school graduation to benefit from the Technical Education Institutional Grant program. Students must have attended the eligible secondary school during the period the Tech Ed requirement was active.
- Prior to or during orientation week at UTI and NASCAR Tech, eligible enrolled students who want to earn advanced placement are required to take the advanced placement opportunities (APO) test(s) to assess their knowledge level in the eligible course or courses for which they are attempting to receive advanced placement credit.²
- Any student who earns a passing grade on an APO test will receive credit for that course without needing to take it. The student can still opt to take the course but at the full tuition price.
- Any student who does not earn a passing grade on an APO test will be required to take the corresponding course at UTI or NASCAR Tech at the full tuition price.
- Any eligible student who chooses not to bypass any courses with advanced placement will receive a Technical Education Institutional Grant discount toward the tuition.

UTI's Automotive Technology, Diesel Technology, and Collision Repair & Refinish Technology programs are accredited by the ASE Education Foundation. UTI graduates from these three programs are well prepared to complete the ASE examination process and can substitute their training for one of the two years of work experience required to achieve ASE certification.

ADVANCED PLACEMENT

AUTOMOTIVE AND DIESEL

Advanced placement is offered for up to six eligible core courses in UTI's Automotive Technology and Diesel Technology programs and NASCAR Tech's Automotive Technology program to students who meet the Technical Education Institutional Grant program requirements.

AUTOMOTIVE/DIESEL ELIGIBLE COURSES

All UTI Automotive and Diesel - Tech I & II core courses are available for Advanced Placement Opportunity Testing.

COLLISION REPAIR

Advanced placement is offered for the following eligible courses in UTI's Collision Repair & Refinish Technology program, provided a secondary school has an active I-CAR Industry Training Alliance membership only:

CRRT ELIGIBLE COURSES

- **EXTERIOR PANEL ALIGNMENT (CRRT-101)**
- **WELDING AND CUTTING (CRRT-105)**
- **INTRODUCTION TO REFINISHING (CRRT-108)**
- **EXTERIOR PANEL REPAIR II (CRRT-124)**

Requires I-CAR module STS01 and a two-hour, hands-on dent repair test

ALL WELDING AND CNC COURSES ARE AVAILABLE FOR ADVANCED PLACEMENT OPPORTUNITY TESTING, WITH A MAXIMUM OF SIX ALLOWED.

¹Each collision repair student from a program that is not a member of the I-CAR Industry Training Alliance but has an ASE Education Foundation Collision Repair certification or is approved based on UTI's review of the curriculum, is only eligible for a Technical Education Institutional Grant. ²Failure to test prior to or during orientation week will disqualify a student from advanced placement. APO testing is only allowed for eligible students who completed related courses at the affiliated school before enrolling in UTI or NASCAR Tech.

HIGH SCHOOL TECHNICAL EDUCATION INSTITUTIONAL GRANT PROGRAM

MOTORCYCLE TECHNICIAN SPECIALIST AND MARINE TECHNICIAN SPECIALIST

Your school has a tremendous opportunity to help its vocational students capitalize on their education and get a head start on postsecondary training that can put them on the path to a career. By establishing Technical Education Institutional Grant agreements with MMI, your qualified students can earn advanced placement or discounts in professional technician training programs.

HOW IT WORKS

- Motorcycle and Marine programs must provide a signed copy of the MMI Technical Education Institutional Grant Agreement along with their program course curriculum to be reviewed and approved by the MMI Education Director.
- Motorcycle and Marine students must have completed the related Tech Ed program at, and graduated from a secondary school with an active Technical Education Institutional Grant agreements on file. Students must start their postsecondary training at MMI within one calendar year following the year of high school graduation to benefit from the Technical Education Institutional Grant.
- Prior to or during orientation week at MMI, enrolled Tech Ed students wanting to earn advanced placement are required to take the advanced placement opportunities (APO) test(s) to assess their knowledge level in the course or courses for which they are attempting to receive advanced placement credit.¹
- Any student who earns a passing grade on an APO test will receive credit for that course without needing to take it. The student can still opt to take the course but at the full tuition price.
- Any student who does not earn a passing grade on an APO test will be required to take the corresponding course at MMI at the full tuition price.
- Any Tech Ed student who chooses not to bypass any courses with advanced placement will receive a Technical Education Institutional Grant discount toward the tuition.

CONTACT YOUR ADMISSIONS REPRESENTATIVE TODAY FOR MORE INFORMATION!

¹Failure to test prior to or during orientation week will disqualify a student from advanced placement.
²MARN-007 is available for advanced placement opportunity testing only if MARN-006 is successfully completed or the MARN-006 advanced placement opportunity test is passed with 70% or better. APO testing is only allowed for students who completed related courses at the affiliated school before enrolling in MMI.

ADVANCED PLACEMENT

MOTORCYCLE

Advanced placement is offered for up to six of the eligible core courses in MMI's Motorcycle Technician Specialist program listed below. Curriculum review and approval by the MMI Education Director is required.

MMI MOTORCYCLE ELIGIBLE COURSES:

- **ENGINES, TRANSMISSIONS AND PRECISION MEASURING (MOTO-101)**
- **CHASSIS, SUSPENSION AND FINAL DRIVE (MOTO-102)**
- **ELECTRICAL SYSTEMS (MOTO-103)**
- **VEHICLE MAINTENANCE (MOTO-104)**
- **ENGINE TROUBLESHOOTING AND NOISE DIAGNOSTICS (MOTO-105)**
- **ELECTRICAL DIAGNOSTICS (MOTO-106)**

MARINE

Advanced placement is offered for up to six of the eligible courses in MMI's Marine Technician Specialist program listed below. Curriculum review and approval by the MMI Education Director is required.

MMI MARINE ELIGIBLE COURSES:

- **ENGINES (MARN-001)**
- **LOWER UNITS/OUTDRIVES (MARN-002)**
- **RIGGING (MARN-003)**
- **SERVICE OPERATIONS (MARN-004)**
- **FUEL & LUBRICATION SYSTEMS (MARN-005)**
- **ELECTRICAL BASICS (MARN-006)**
- **ELECTRICAL SYSTEMS (MARN-007)²**
