

My Success Story

Name:

Jeremiah Kuehl

Title and Employer:

Service Advisor
Service King Collision Repair Centers

UTI Campus:

UTI-Houston

“Be a sponge and soak up the knowledge that UTI is willing to give.”

How it All Started

My military career ended after 13 years in the Army due to injuries sustained on my fourth deployment. I knew that I loved cars and felt UTI would be a good match because of location, recommendations and I could use my Post-9/11 GI Bill®.*

My Time at UTI

After moving my family of six to Houston, I started school and really enjoyed the hands-on learning part of the curriculum. The facility was amazingly clean, up-to-date and a great atmosphere to learn in. The instructors were not only experienced and full of knowledge, they were eager to share. UTI provided me the basics of the collision repair field, which made the ease of transitioning into a new job easier and quicker.**

The Future is Bright

UTI is the gold mine of learning opportunities for those who are willing to soak it up. Graduating with a 4.0 GPA, 99% attendance rate and multiple awards, UTI geared me up for success.
